# SmartDosing

1

**Record and monitor** the proper functioning of your treatments in real-time: medication, vaccination, acidification, etc...

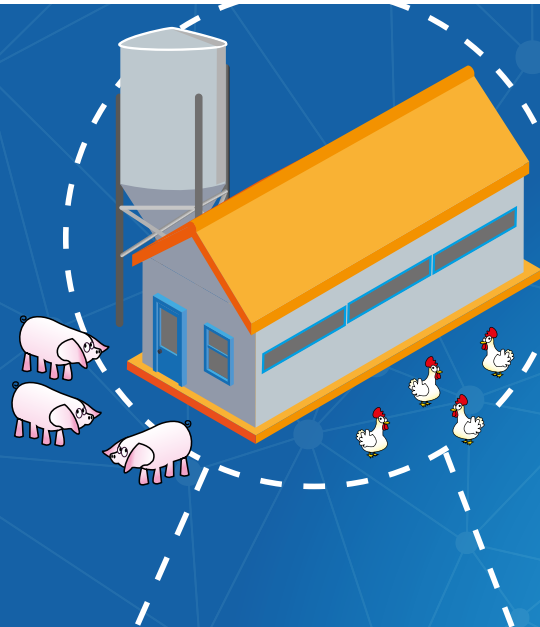

2

**Secure** your treatments thanks to "event" and "incident" alarms: container empty, preventative maintenance, etc...

3

**Track** your treatment data and the proper functioning of your SmartDosing in just a few clicks, thanks to the SmartLink software.

Supports good livestock practices by **contributing to a reduction in the use of antibiotics.**

## SmartLink

### Dashboard
